### WARNING:

This product contains one or more button cell or coin batteries. If swallowed, a button cell or coin battery can cause internal chemical burns in as little as two hours and can lead to death. Dispose of used batteries immediately. Keep new and used batteries away from children. If you think batteries might have been swallowed or placed inside any part of the body, seek immediate medical attention, and go straight to the nearest hospital emergency department.

## Australia/New Zealand

If you think batteries might have been swallowed or placed inside any part of the body, immediately call the 24-hour Poisons Information Centre on 13 11 26 (in Australia) or 24-hour National Poisons Centre on 0800 764 766 (in New Zealand) for fast, expert advice and go straight to the nearest hospital emergency room.

## Disposal of batteries and product

The crossed-out wheellie bin symbols on products and batteries, or on their respective packaging, indicates they must not be disposed of in domestic waste as they contain substances that can be damaging to the environment and human health.

The chemical symbols Hg, Cd or Pb, where marked, indicate that the battery contains more than the specified value of mercury (Hg), cadmium (Cd) or lead (Pb) set out in the Batteries and Accumulators Regulation.

The solid bar indicates that the product was placed on the market after 13th August, 2005.

Help protect the environment by disposing of your product or batteries responsibly.

**VTech®** cares for the planet.

Care for the environment and give your toy a second life by disposing of it at a small electricals collection point so all its materials can be recycled.

In the UK:

Visit [www.recyclenow.com](http://www.recyclenow.com) to see a list of collection points near you.

In Australia & New Zealand:

Check with your local council for kerbside collections.
