

# JETBOT

THE SMART DRAWING ROBOT

## Guidebook

vtech®

# Theme Song

It's time to draw together!

I like to draw, let me show you,  
It's so much fun! You can draw with me too!  
With a pen in my hand, and singing a song,  
When we make art, we just can't go wrong!

Red, green, orange, purple, pink, or blue,  
It's fun to draw with colours, any one will do!  
Pick up your pencils, pick up your pens,  
Pick up your crayons, they're our drawing friends!

.... *Chorus* ....

It's time to draw together!  
One, two, three, four, put me on the paper.  
It's time to draw, yeah, yeah, yeah!  
So let's get going!

**We** can draw a castle, or we can draw a tree,  
We can draw a maze, or we can even draw me!  
Put a chip in my back, and put me on the paper,  
When I finish drawing, what will you draw later?

Wanna code with me? Let's go! Alright!  
Forwards, backwards, left and right!  
You can code a flag, a robot, or hat,  
You can code an elephant or even a cat!

*Chorus x2*

# Pen Installation

Insert Pen until it touches on the paper.  
The pen will rebound 1-2mm when it is released.

# How to Start a Drawing

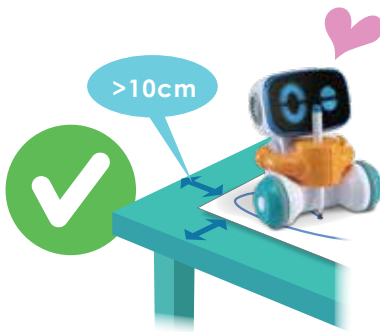

1 Use A4 or larger paper on a flat surface

2 Pen tip at the centre of the paper

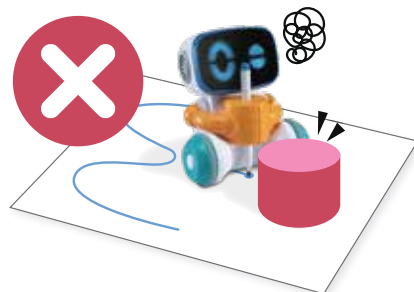

3 Press the Go button to start

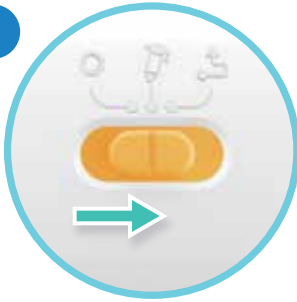

**DO** make sure the paper is kept away from table edges.

**DON'T** leave obstacles on the paper.

Choose a data chip you'd like JotBot to draw!

1

Select Learning Mode

2

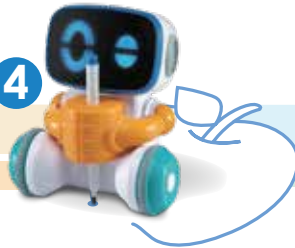

Insert a chip

3

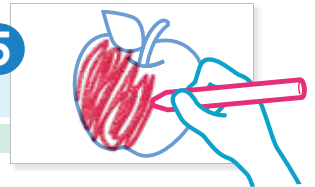

Place JotBot on the paper and then press the Go button to start

4

Watch JotBot draw

5

Now it's your turn!

# WITHOUT Data Chip

Let JotBot choose what to play!

2

Remove any chip

3

Press Go to let JotBot suggest an activity.

4

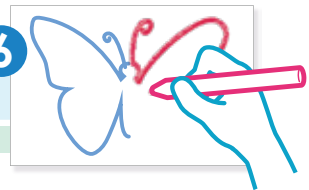

Place JotBot on the paper and then press the Go button to start

5

Watch JotBot draw

6

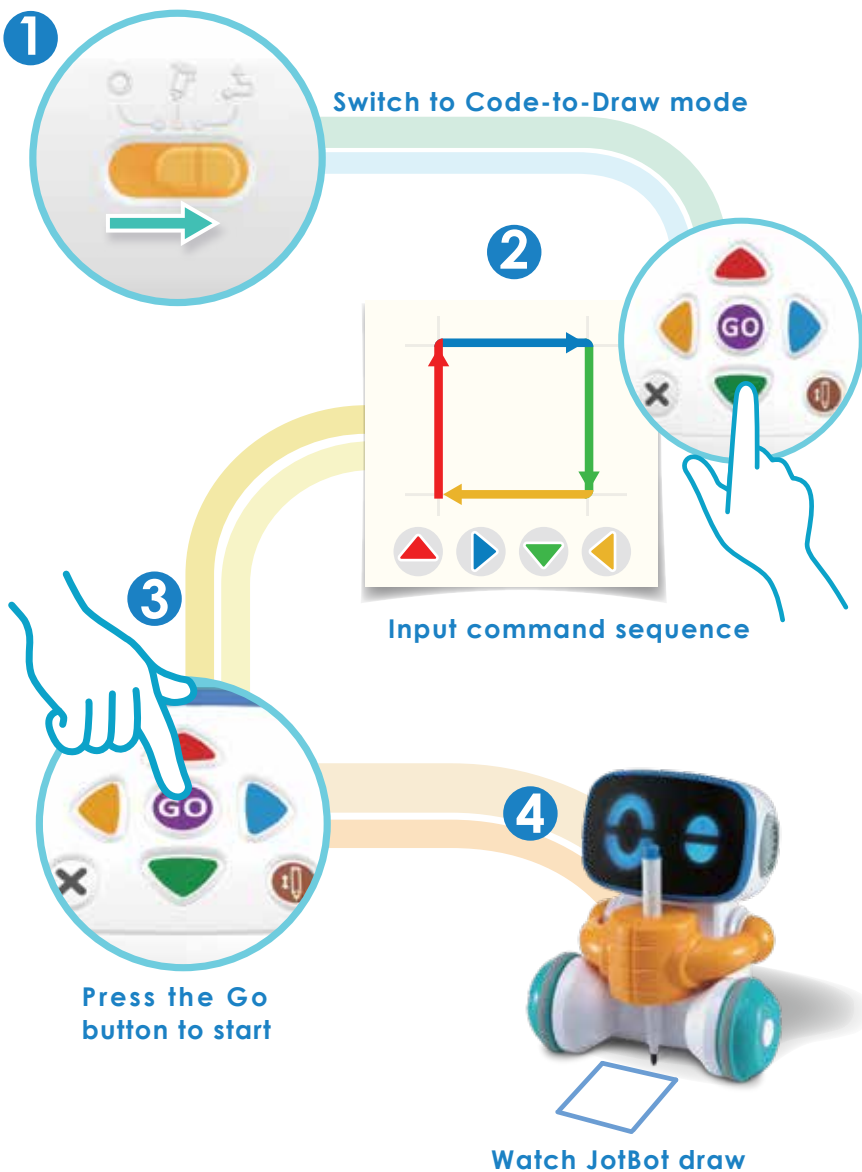

Listen and follow the instructions to play!

# Code-to-Draw Mode

Code to draw something fun!

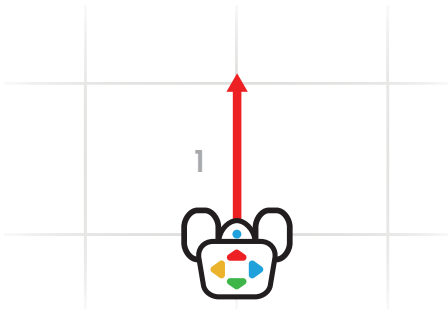

# Get Started

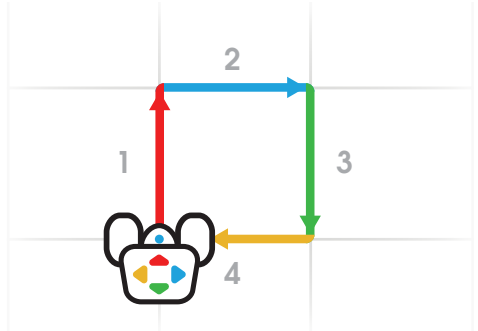

JotBot will follow a command sequence in order of the arrow presses. Try out the below commands to get started!

## My 1st step

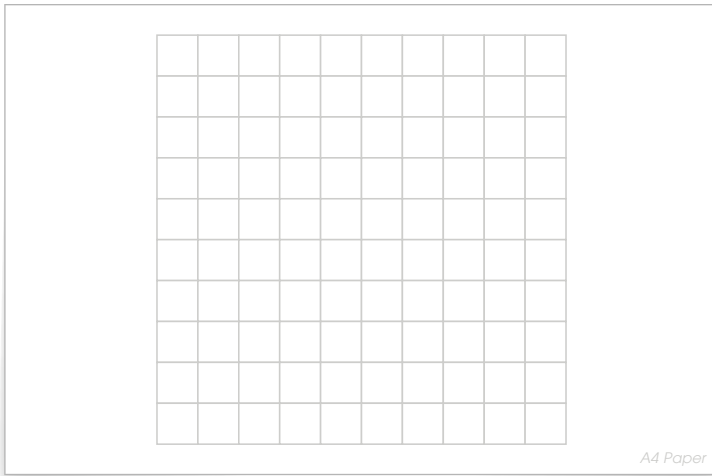

Code:  

## Square

Code:     

JotBot can draw up to 10x10 steps on A4 paper.

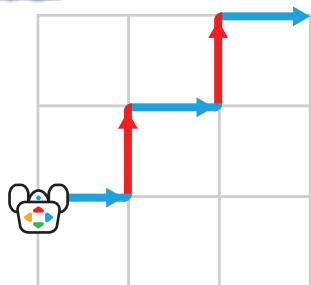

# Level ★

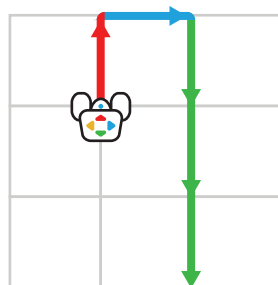

Follow the different colour arrows to code JotBot to draw!

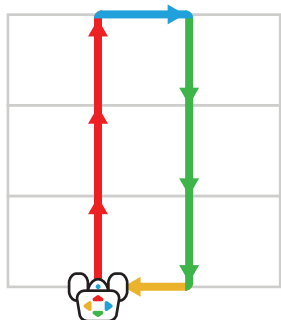

Stairs

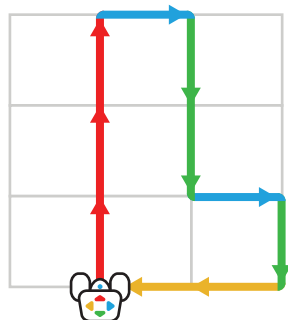

Candy Cane

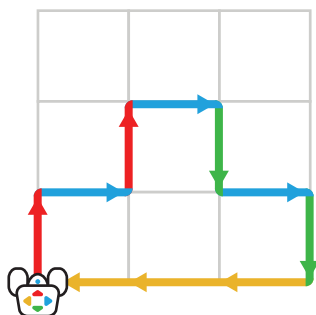

Candle

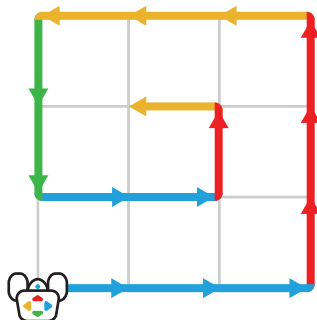

Sock

Podium
