Please save this Instruction Manual as it contains important information.

PRODUCT SPECIFICATION

Battery	One CR2450 battery
Time Format	12h or 24h
Display	Digital
Optimum Operating Temperature	32°F - 104°F (0°C - 40°C)

Important Note

- Do not place the watch under running water.
- Do not submerge. Not suitable for showering, bathing or swimming.
- Keep the cover closed when the watch is not in use.

WARNING

People with very sensitive skin may notice some irritation after wearing the **Learning Pup Watch** for extended periods of time. The skin may become irritated when moisture, sweat, soap, or other irritants get trapped under the wristband and are left in contact with the skin. To prevent this, we suggest children remove the watch before going to bed for the night, take the watch off if it's feeling uncomfortable, and keep their wrist and the band clean and dry.

In addition, wearing the watch too tightly may also cause irritation. Make sure the fit is good - tight enough so the watch stays in place but not so tight that it's uncomfortable. If you notice any redness, swelling, or other irritation, you may want to consult a doctor before wearing the watch again.

GETTING STARTED

Battery Removal and Installation

1. Close the cover of the watch.
2. Find the battery cover located on the back of the unit, use a screwdriver to loosen the screw and then open the battery cover.
3. Remove the old battery by pulling up on one end of the battery.
4. Install one new CR2450 battery as illustrated.
5. Replace the battery cover and tighten the screw to secure.

WARNING:

Adult assembly required for battery installation.
Keep batteries out of reach of children.

Disposal of batteries and product

The crossed-out wheellie bin symbols on products and batteries, or on their respective packaging, indicates they must not be disposed of in domestic waste as they contain substances that can be damaging to the environment and human health.

The chemical symbols Hg, Cd or Pb, where marked, indicate that the battery contains more than the specified value of mercury (Hg), cadmium (Cd) or lead (Pb) set out in the Batteries and Accumulators Regulation.

The solid bar indicates that the product was placed on the market after 13th August, 2005.

Help protect the environment by disposing of your product or batteries responsibly.

VTech® cares for the planet.

Care for the environment and give your toy a second life by disposing of it at a small electricals collection point so all its materials can be recycled.

In the UK:

Visit www.recyclenow.com to see a list of collection points near you.

In Australia & New Zealand:

Check with your local council for kerbside collections.

WARNING:

This product contains one or more button cell or coin batteries. If swallowed, a button cell or coin battery can cause internal chemical burns in as little as two hours and can lead to death. Dispose of used batteries immediately. Keep new and used batteries away from children. If you think batteries might have been swallowed or placed inside any part of the body, seek immediate medical attention, and go straight to the nearest hospital emergency department.

Australia/New Zealand

If you think batteries might have been swallowed or placed inside any part of the body, immediately call the 24-hour Poisons Information Centre on 13 11 26 (in Australia) or 24-hour National Poisons Centre on 0800 764 766 (in New Zealand) for fast, expert advice and go straight to the nearest hospital emergency room.

TO BEGIN USING

When you use the watch for the first time, you must unlock it from Try-Me mode to play. To unlock from Try-Me mode, open the **Cover**, and press the **Left + Right + OK Buttons** together for approximately five seconds. You will then hear three beeping sounds to indicate it has been unlocked. Press any button to activate the watch and set the time.

Press the **Left or Right Buttons** to select, then press the **OK Button** to confirm and move to the next option. A tick icon will be displayed when the setting is complete.

Note

- When the battery level is low, most functions on the watch may not be activated, except for the clock display. It is recommended to install a new battery as soon as possible before further use.

- If the battery level is too low and cannot keep the clock running, you will need to enter the time again after the battery has been replaced.
